MGT. 347: Incident Command Systems Forms Review

CREF # 11-2-ODP-1

MGT 347 Course information:

Forms in Action!

This 4½ hour workshop provides a detailed introduction to emergency response supervisors and mid-to-upper-level managers to the Incident Command System (ICS) forms used in the development of an Incident Action Plan (IAP).

Participants will examine the primary forms used in an IAP, as well as supporting and other utility forms. In addition, participants will review the planning process and where, within that process, the forms are filled out and by whom.

The workshop includes a practical application designed to instruct participants in the development of Specific, Measurable, Action-oriented, Realistic, and Time-based (SMART) control and management objectives.

Target Audience:

Participants should come from middle and senior management.: emergency response managers, first-line supervisors, and administrators who will function as Incident Commanders (IC), Unified Command (UC) staff members, Emergency Management Coordinators, command and general staff members, or EOC staff members.

Prerequisites:

- ICS 100
- ICS 200
- IS 700
